

To the FCC:

Why is it necessary to regulate traffic and weather on XM radio. Is it really that big of a deal to provide listeners ,who wish to turn to a new medium, with a way of receiving the same news anyone else can. There are more important issues that should be addressed right now, such as the war in Iraq and the media coverage that is receiving. So not take away Traffic and weather from XM radio, for that would be a shame and slap in the face of freedom of speech. Thank you for your time..Michael G. Douglas
